Fatal rollover near New Auburn

According to Barron County Sheriff Chris Fitzgerald, on Wednesday, July 21, 2021, at 2:24 p.m., the Barron County 911 Center received a call of a one vehicle rollover accident on Hwy 53 near the New Auburn exit.

The Barron County Sheriff's Department responded to the scene with the assistance of the Chetek Ambulance and New Auburn Fire Department.

Per Chris Fitzgerald, Barron County Sheriff.

Initial investigation

Truck vs Highway Department tractor crash results in fatality of Rice Lake man

The Wisconsin State Patrol reported that at 9:30 AM on Tuesday July 20, 2021 WI State Patrol Troopers and Douglas County Deputies responded to a crash on Highway 53 northbound approximately 1/10 of a mile north of North Boundary Road near Solon Springs.

Erika E. Olson, 22, a Douglas County Highway Department worker from Superior, was performing mowing operations in a tractor while driving northbound on Highway 53. Steven A. Snider, 66, of

Rice Lake was driving in a pickup truck also traveling north on Highway 53 and struck the rear of the tractor. Snider did not survive the crash. Olson had minor injuries.

Assisting agencies included Douglas County Sheriff's Department, Solon Fire Department, WI DNR, Mayo Ambulance, and Douglas County Highway Department.

The crash remains under investigation by Wisconsin State Patrol personnel.

Preliminary Budget approved and plans for the new school year discussed at July School Board Meeting

The Board of Education for the Cumberland School District met on Monday, July 26th in the Middle School commons. After dispensing with the business items, Board President Dr. Eric Stone opened the floor for public comments. The First to speak was John Schell.

Schell, who introduced himself as "husband, parent, grandparent, retired educator of 35 years, PE teacher, counselor, Assistant Principal, and coach" began his remarks by simply saying "Thank you" to the Board. He thanked them for all the covid strategies that the board emplaced which allowed the school to complete the entire school year with no missed days. He stated that during his time in education he had learned that there are two things kids need to thrive - boundaries and discipline. He said "Kids need to know their boundaries and the consequences when they break those boundaries."

"The pandemic policies - masks, social distancing, handwashing, etc. worked," he went on to say "because the kids knew what was expected, knew the consequences, and were willing to do what was needed to be able to stay in school." He

reminded the audience that the State allows choices for schooling such as open enrollment and home schooling if parents don't like what is going on in their district, but in his estimation, "When students are finished with their educational experience in the Cumberland School District they are pretty well prepared to take that 'next step' in their life - whatever that may be. Let us give credit to the board, administration and staff for the job they do with such an important product - your sons and daughters."

Next to speak was Robert Ruppel. He began his comments by asking if the Board "had a chance to do any reading on the subject of 'Furries?'" which he had broached in his comments in last month's meeting. Ruppel then moved on to the board "blindly" following the covid guidelines "passed through" a "faulty chain of command" which bypasses "we the people." He disparaged Barron County Health Officer Laura Suave's stand on masking efficacy saying it "totally undermined her credibility, ability to think critically, and knowledge of virology." He wants the Board to "dismantle all these nonsense policies"

50 People (& More) Who Care presented a check for \$10,700 to Peter & Annies Coffee Shop Cafe Wednesday, July 21st. Pictured are Front row from left: Ellen Sendelbach, Ryssa Standaert and Ryan Standaert. Back row from left: Phil Flottum, Jan Keehn, John Bavier, Dave Evenson, Rich Jansen, Larry Werner and Michael Tempesta. Congratulations to Peter & Annies!

Northwoods Notebook: Fifty who care . . . about Peter & Annie's By Larry Werner

Ryan Standaert, who owns three Cumberland businesses, didn't plan to become the owner of a coffee shop/café, but it just sort of happened, because he wanted to buy the building that housed Peter & Annie's World Market, where Vickie Komarek sold clothing, gifts and coffee for a dozen years.

So Standaert said it was a "no-brainer" to buy the coffee shop at its new location and operate it at the busy Four Corners intersection. Vickie, meanwhile, plans to retire in the fall and head south with husband, Steve, for the winter months.

After operating Peter & Annie's Coffee Shop & Café for almost a year, Standaert applied for a grant from 50 People (& more) Who Care, and last week received a check for \$10,700 to expand the community gathering place. When we sat down to discuss his being chosen for the gift, he had a tough time talking, wiping away tears.

"It's unreal" is about all he was able to say when I asked him how he felt about being chosen from among four finalists.

Shop & Cafe.

So Standaert said it was a "no-brainer" to buy the coffee shop at its new location and operate it at the busy Four Corners intersection. Vickie, meanwhile, plans to retire in the fall and head south with husband, Steve, for the winter months.

After operating Peter & Annie's Coffee Shop & Café for almost a year, Standaert applied for a grant from 50 People (& more)

Who Care, and last week received a check for \$10,700 to expand the community gathering place. When we sat down to discuss his being chosen for the gift, he had a tough time talking, wiping away tears.

"It's unreal" is about all he was able to say when I asked him how he felt about being chosen from among four finalists.

The grants have risen from about \$5,000 initially to more than \$10,000 now. Businesses apply through the group's website - 50people-

whocare.org.

Peter & Annie's had been a finalist in three previous rounds. So, I guess it means the fourth time is the charm.

Standaert, who will complete his purchase of the business by Jan. 1, will use the funds to remove coolers and freezers that had lined two sides of the old convenience store. That will allow him to expand the seating area and build a bigger stage for the live music at the coffee shop every Saturday from 11 a.m. to 2 p.m.

Even though he didn't plan on being in the business of operating a coffee shop café, Standaert says running one business is like running another.

"When you own a business, you own a business," he said "A business owner is a business owner. You

Card of Thanks

We would like to thank our family & friends for all the help we have received during the past weeks. The calls, cards, and flowers all brightened our days.

The wonderful care Marlene received during her surgery and stay at the hospital. We can be so thankful for our small community hospital and all the staff. To Dr. Lingen and Dr. Bair; you are both caring & compassionate; thank you.

Thank you to the ladies from Home Sweet Home who took such great care of Don, especially the day of my surgery and since then helping me too.

My love and appreciation to Tim, Lynda and Michael, who took time from their normal routines to be with us and help with our care. We are so blessed to have these children and their children.

To our church family and Pastor Miels, we thank you for your continued prayers. God Bless all of you in faith and friendship.

Don & Marlene Rye

Card of Thanks

Our family would like to express our heartfelt appreciation to both Christine Hines, FNP at Marshfield Clinic Cumberland Center and her colleagues, and well as to Dr. Muhammad Saddiqui, MD at the Marshfield Medical Center in Rice Lake, and his nursing and CMA staff there for taking such good care of me in September 2017.

Their efforts led to the particular cancer diagnosis and eventual successful treatment in a clinical trial elsewhere. Thanks to all, I was able to enjoy my first grandchild's smile and laughter, which is priceless. The entire community itself is lucky to have such enthusiastic medical talent in the area.

ETC PRESENTS
Upcoming Events!
Play Postponed!
The play scheduled for Baga Fest week, *Gilligan's Island City*, has been postponed to a later date due to technical problems.

Rain Check!
In the event of rain, the Island City Music concerts will be held at the Cumberland Arts Center

ETC is located at 1595 2nd Avenue • Cumberland, WI (across from Cumberland Elementary School)
Information regarding ETC events can be seen at www.cumberlandetc.com or you can "like" ETC on Facebook or watch the Advocate

Jazz group, The Indigo Quartet, led by local guitarist Dustin DeGolier will be playing on the Library Lake Stage on Tuesday, August 3rd.

Indigo Quartet on the lake August 3rd

The Indigo Quartet will be playing its classic jazz tunes on the Library Lake stage Tuesday, Aug. 3, in the next installment of the Island City Music series. The free concert will be sponsored by Cumberland Boat Storage, Dock & Lift, and food will be served by the Barronett Civic Club.

The concert is from 6 p.m. to 8 p.m. If it rains, the performance will be at the Cumberland Arts Center.

The jazz group, led by guitarist Dustin DeGolier, "specializes in unique interpretations of American standards as well as lesser known songs of the jazz and blues canon," according to its Facebook page.

These summer concerts

are presented by Enrichment Through Culture

In addition to music on Tuesdays, there is kayaking (ETC), Cumberland's arts council, which is celebrating its 31st year as a non-profit for the arts. The summer performances were started five years ago and have become popular with music lovers who bring their lawn chairs to the small Baga

kayaks that launch from the dock on the south end of Library Lake. To reserve a kayak, email Susan Bridger, community education director, at sbrid@csdmail.com, or call her at 715-822-5121, ext. 403.

Questions? Email lhwerner47@gmail.com.

Author Talk with retired vet Dave Mills

Local author and retired veterinarian Dave Mills, DVM will be at the Thomas St. Angelo Public Library in person and on Zoom August 12 at 6:30 p.m. His life as a veterinarian has provided him with enough professional challenges, colorful characters and funny predicaments to write a book!

Cow Tales: Memories of a Rural Animal Doctor is a funny and touching look at life in northern Wisconsin.

Limited in-person seating. Tickets required. Masks encouraged. Or attend virtually on Zoom. Call 715-822-2767 or email cupl@cumberlandpl.org to register.

just get things done. I didn't know I wanted to be a café owner. But I always cooked. My mom did the food at the auctions. I thought it can't be that hard."

He acknowledged the food-service business has some special challenges, but he's learning. And he said the location at the four-way stop, with thousands of cars passing through each week, has proven to be a better place for a coffee shop than the old location in the middle of a block of Second Avenue.

"This is going to be a significantly better location because of the Four Corners, because of the visibility, because of the easy in and out," he said. "Since this was a staple in Cumberland, we want to keep it here so when you go to Cumberland, you're going to Peter & Annie's."

Once the coolers on the north side of the coffee shop are gone, he plans to build a "lounge" with upholstered furniture where people can sit and talk over coffee. He might

add a fireplace. And on the east side of the room, he'll remove some freezers and build a bigger stage.

He also has plans to add a deck on the building's west side along main street. Right now, the outside eating area is on a pavement that slants to the road.

The new Peter & Annie's is employing more people than the old one, including two experienced baristas – Iris and Aubrey – whom Standaert says he was fortunate to find. "They're worth their weight in gold," he said.

He said his latest enterprise, which he operates with his wife, Allysa, and his mother, Deb, will continue to expand and improve with new menu items, new drinks and music, which he says he loves. He said his latest business venture is "self-funded," which is why he appreciates the gift from 50 People (& more) Who Care.

"I can't thank everybody enough," he said.

Larry Werner's email is lhwerner47@gmail.com.

Bert Brinkley; A Cumberland Pioneer by Mark R. Fuller

There are many names from the early settlement of Cumberland well known to our cities residents. The stories of individuals like J.F. Miller, S.W. Hines, J.F. Fuller, Albert Uecke and H.S. Comstock have been well published. Other accounts of our past, like those of Bert Brinkley, are less known.

Brinkley moved to the "Island City" with his parents in 1881, coming from Trempealeau County. He was five at the time as the family settled north of the city on Beaver Dam Lake. With no bridges at the time, they would mostly take a boat on their trips to town.

Although they had a bucket well, they also used lake water for their needs. He recalled in an *Advocate* article in the early 40s, of, "Getting water from the lake one day and seeing an explosion at the nearby mill. I saw a man literally blown out into the lake. He survived but the firemen at the mill received burns," he would say of the accident. At one-time, there were three sawmills on Beaver Dam Lake, all doing a thriving business.

In the winter of 1884 and 1885, the founders drove pilings for a bridge on the north edge of town. They were 12 feet above the water so steamboats could go under. Brinkley would remember the celebrations that followed. He also remembered a three-day 4th of July celebration that was given by the Civil War veterans. "My father, who fought in the Mexican War, shaved off his whiskers for the occasion and I didn't recognize him. The fife and drum corps were the best part of it all," Brinkley said.

Brinkley would live in Cumberland until his death on July 22, 1951, at the age of 74. He was buried with Masonic rites in Lakeside cemetery. He was survived by his wife Anna and two daughters. Five other children had preceded him in death.

He would say before his death, Of all the places he had been, "I like Cumberland the best, although I'm rather partial to St. Paul also. But Cumberland is my home and a much better place than the wild saw mill town of years ago."

We know that thanks to his accounts and those of others from our past.

Brinkley recalled the first church to be built in town was

The Class of 1986 gathered for some fun this past weekend. We started with a golf outing at the Cumberland Golf Course. It was a beautiful day with lots of reminiscing and laughter! The Corner Bar, Nezzy's, Peter & Annie's, Louie's Finer Meats & Louie's Lodge, Root's Coffee Company, along with CKC Contracting, Inc., were generous in supporting our outing with donations. Then classmates gathered together at the Dach Lach Haus for a wonderful dinner and short program. Cumberland was a great place to grow up and those that have moved away enjoy returning to the area! Front row, left to right: Marie Ranallo Mehlhoff, Betty Nielsen Vergin, Jenny Baril Reineke, Jennifer Jacobson Turcott, Micki Ranallo Schafer, Jill Schneider Berg, Timothy Beard, Jesse Adams. Middle row, left to right: Wendy Nelson Worsley, Barb Dague Hussey, Kelly Mireau, Jennifer Scharmer Dinan, Julie Anderson Lemke, Laura Grant, Jean Behne Williamson, Chad Ritchie. Back row, left to right: Della DeSantis Schindler, Scott Sutherland, Ann McLellan, Jenny Ginther Hutcheson, Maria Leahy Gjovig, Chris Vocelka, Shawn Neva, Chris Murray, Craig Friess, Mike Oslund, Becky Stone Rich and Tucker Potthast.

Sampson@jackson.com

By Craig Bucher

By the time you read this, the House of Representatives will have held opening hearings into what exactly happened at the U.S. Capitol on January 6. We have all heard politicians of all political stripes pontificate one or the other viewpoint about what actually happened and now we will have a chance for a glimpse of the day from witnesses who were there. I don't care if you call yourself a Republican or a Democrat, as an American you have the right to hear and see for yourself from those who were there and witnessed, first hand, what happened that day. I think I should be able to hear from a policeman who was on duty that day. I think I should be able to hear from people who were there and participated in the march to the Capitol. I think I should see the actual videos unfiltered by someone else. If it was far right radicals or if it was far left radicals then let us hear from them or see them in action. All Americans, I believe, want the truth. This hearing is one way to begin to get at that truth. I hope we can all watch the hearings and I hope they will generate light for all of us to help us understand that truth.

-0-

Along with 18 million other Americans, I watched the opening of the delayed 2020 Olympic Games. I have watched the beginnings of every Olympic games since 1968. I think it was the poorest opening of the games I have witnessed. I hope the rest of the games are more exciting.

SEE YOU NEXT WEEK!

LETTERS Editor

Why publish letters from non-locals?

To the Editor:

Last week, we saw a letter on the topic of climate change in your Letters column. It's curious that this writer is giving her address as Milwaukee. How is it that someone from a community more than 300 miles away is writing a letter for publication our local paper? I would suggest that Ms. Moynihan is a part of a campaign to influence public policy by providing information as if it were fact in a forum such a "Letters" that does not require fact checking, validation or evidence to support the many claims she includes that are commonly used to create an emotional reaction.

These organized cam-

paigns that include sending out hundreds of copies of a "letter" to small town newspapers are nothing more than propaganda. Propaganda, by definition, is biased or misleading in nature, used to promote or publicize a particular political cause. This is not the first time that I have seen letters published with a political agenda sent from folks residing outside of our community. Makes me wonder... What is the intent of both the letter writer and the Editor who chooses to publish such content?

Thank you for publishing my letter, one from a local resident.

Laura Maginnis
Cumberland

Negative effects of Critical Race Theory

To the Editor:

Recently I received an alarming email from a friend. It told of Dr. Duke Pesta, a professor of English at the University of Wisconsin, Oshkosh that spoke at the RPW State Convention

Peter J. Skidmore, 38, of Birchwood, has been charged with battery and domestic abuse. His court hearing is scheduled for September 22, 2021.

Jason P. Kieffer, 41, of Clear Lake, has been charged with battery, domestic abuse and disorderly conduct. His court hearing is scheduled for July 14, 2021.

John E. Stein, 59, of River Falls, has been charged with possession of methamphetamine. His adjourned initial appearance is scheduled for July 28, 2021.

Christopher R. Helsper, 49, of Eau Claire, has been charged with possession of methamphetamine, obstructing an officer, and operating a motor vehicle while revoked.

On July 18, 2021, Barron Police Officer Schnider conducted a traffic stop shortly after 12:30 am, of a vehicle he initially observed parked at the gas pumps at a gas station in the city of Barron. The reason for the traffic stop is that when Officer Schnider ran the registration of the vehicle, Officer Schnider learned that the registered owner of the vehicle, Jeremiah Helsper, had a suspended instructional permit.

Officer Schnider's report indicates he pulled the vehicle over on S. 1st Street, near E. Division Avenue in Barron. When he made contact with the lone male occupant and driver of the vehicle, Officer Schnider asked for his driver's license. Helsper indicated that he did not have any form of identification on him. When he asked Helsper to provide a name, the driver began to verbally identify himself.

He indicated his first name was Jeremiah, and his last name was Helsper. When he was asked his date of birth, he stated 1992. When Officer Schnider asked what his full date of birth was, he gave a birthdate of August 7, 1992. Officer Schnider's report indicates that he estimated Helsper to be approximately 45-50 years old.

Officer Schnider's report indicates that Helsper indicated he was coming from Ashland and was going back to Eau Claire. When Officer Schnider asked if there was insurance on the vehicle, Helsper indicated that he had just recently purchased it and had not obtained any insurance yet. Officer Schnider observed that as he was speaking with Helsper, he kept his eyes forward, and did not appear to want to make eye contact with Officer Schnider. When Officer Schnider asked him if he knew his social security number, Helsper indicated that he did not know it. When Officer Schnider informed him that he looked older than being born in 1992, he asked again what his name was, Helsper looked down and stated, "Ok, my name is Chris Helsper."

Officer Schnider had Helsper get out of the vehicle and once he did, Officer Schnider asked him if he had any warrants, and that the reason why he lied about his name, and Helsper responded, "maybe", and that the warrants were for missing court.

Officer Schnider's report indicates that Barron Police Department Sergeant Schofield had arrived on scene and advised Officer Schnider that there was something located on the front driver's seat, and when Officer Schnider went to the front driver's door, he observed a small clear bottle, which was located on the driver's seat of the vehicle. Inside the bottle, he could observe a white crystal substance that, based on his experience, he believed to be methamphetamine. He retrieved the bottle from the vehicle and advised Helsper he was under arrest for possession of methamphetamine.

As Officer Schnider was escorting Helsper to the squad car, he stated "I got nothing on me that's all I got". As Officer Schnider was searching Helsper, he stated "I was going to throw it out the window, but there wasn't much time for that."

Officer Schnider's report indicates that he and Sergeant Schofield conducted a further search of the vehicle but did not locate anything else of evidentiary value. When he went to speak with Helsper after reading him the Miranda Warning, Officer Schnider asked him about what was located on the driver's seat of the vehicle, to which Helsper responded, "it's meth I assume." When he asked if the methamphetamine was his, he stated it was in the vehicle, and he did not know who it belonged to.

If convicted for possession of methamphetamine, Helsper may be fined not more than \$10,000 or imprisoned not more than three years and six months or both. For obstructing an officer, he may be fined not more than \$10,000 or imprisoned not more than nine months or both. For operating a motor vehicle while revoked, he may be fined not more than \$2,500 or imprisoned not more than one year or both. His preliminary hearing was scheduled for July 23, 2021.

C.P.D. CALL LOG

Wednesday, July 21

Received a call from a woman who advised someone hit her vehicle while she was inside a store shopping. The woman advised that the vehicle is still in the parking lot. Officer advised.

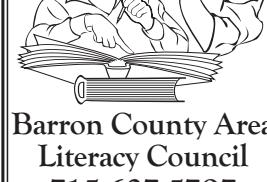

Thursday, July 22

Officer advised he received a call from a convenience store advising they have a subject on camera shoplifting. They advised the subject is no longer in the store. Officer located subject and is en route back to the store.

Sunday, July 25

A male called advising there is an intoxicated female walking up and down Main Street causing a disturbance. The male was going to try and give her a ride home until she started causing a scene, instead he decided to call 911 and just go home. Officer has female detained in his squad car, and will be giving her a ride to a friend's house, then to the jail.

The State Amateur Baseball Championship Returns to the Island City

by Mark R. Fuller

Manager Jimmy Nelson called the first practice of the 1956 Cumberland Islanders for April 12. Cumberland was coming off a 27 and 5 record in 1955, but had come up short at the Wisconsin Amateur Baseball Association State Tournament, that saw Marshfield taking home the Class A crown. The Tournament had been held in the Island City and the attendance for the eight-day affair was listed at an amazing 5,326.

Cumberland had won the 1952 and 1953 Championships and hoped to return the crown to their fans this summer. Things began well for the Islanders as they opened up the season with a 17-0 victory over Shell Lake as starting pitcher Al Peer struck out 15 batters..

Peer was a talented left handed thrower who had gone 19 and 0 on the mound in 1952 when Cumberland won their first Wisconsin Amateur Baseball Association Title. Peer was named MVP of that years Tournament and went 13 and 4, striking out 197 hitters in 141 innings of work, when the Islanders repeated their Championship in 1953.

By July 4 of 1956, Cumberland's record stood at 11 and 1. Their only loss came to South St. Paul, but they soon went on a long winning streak and by early August their record had climbed to 21 and 1. That set up a return match against South St. Paul in Cumberland.

As would be expected, Al Peer got the nod on the mound and responded with a 15 strikeout, 7-0 shutout

over the visitors as Ted Ficocello led the Islander's offense with three hits.

Cumberland would lose two of their last five games to finish the regular season with a 25 and 3 mark. It was now time for the State Amateur Tournament, which would be again held on Cumberland's Moser Field.

Sam Donatelle served as the Chairman of the Tournament and he and his committee worked hard to make sure everything was ready for the eight-team field. Held from August 26 to September 3, Cumberland played their way into the Championship contest against Superior with wins in their first two games.

Cumberland started Bob Stroozza on the mound in the finale as Peer was sore after pitching 14 innings in the two previous games. After Cumberland fell behind 4 to 1 after two innings, however, Peer was called to the mound and asked to take over once again.

To no ones surprise, Peer was outstanding as he responded with seven shutout innings in a 5-4 Islander comeback victory. The Championship had indeed returned to the "Island City."

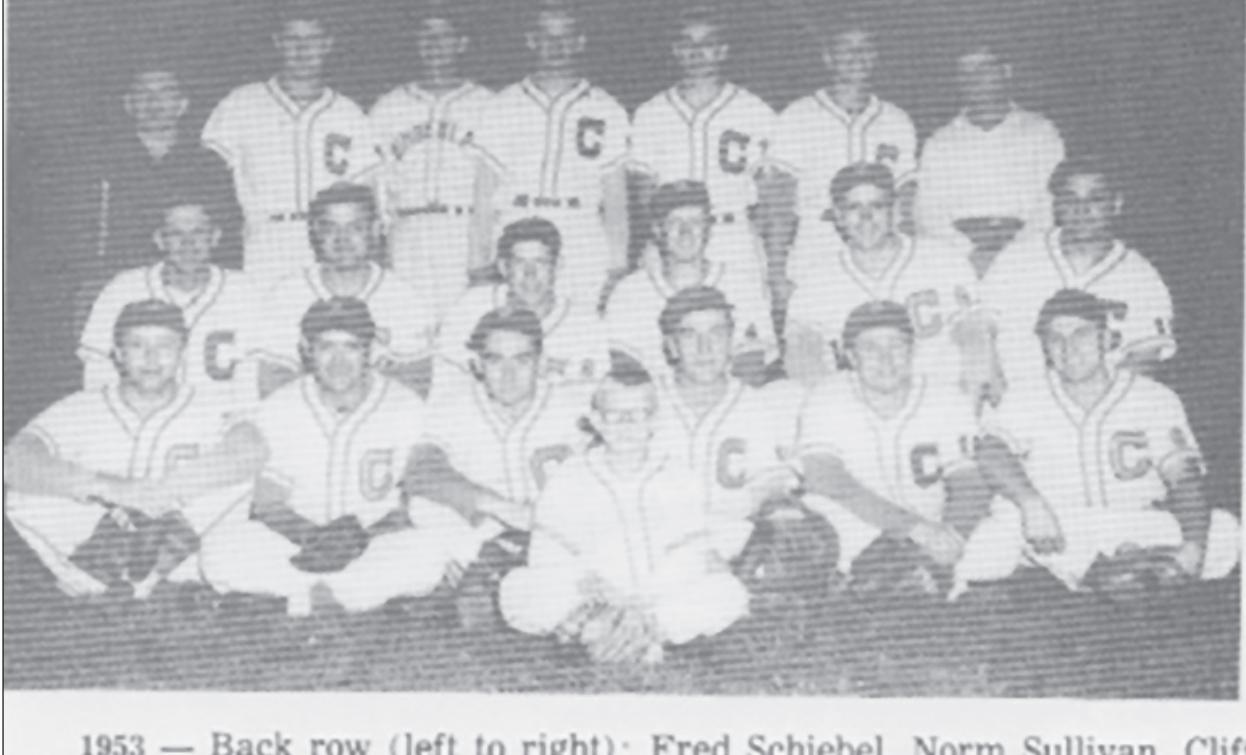

Named the unanimous MVP, Peer had pitched 21 of a possible 27 innings in the Tournament, striking out 28 batters and allowing one run on six hits. For the season, he went 18 and 0 with a 1.46 ERA. Bud Rylander and Norm Sullivan led the winner's attack in the title game with two hits each.

It was time to celebrate in Cumberland once again.

1952 CLASS B CHAMPIONS (37 wins, 3 losses) — Back row (left to right): Ken Barrows, Ted Ficocello, Jim Nelson, Miles Miller, Norm Sullivan, Clarence Capra.

Al Peer. Front row: Bob Nesvold, John Engsether, Bud Rylander, Bud Nesvold, Jerry Gargaro, Don Beran, Jerry Brown and Roy Wickstrom.

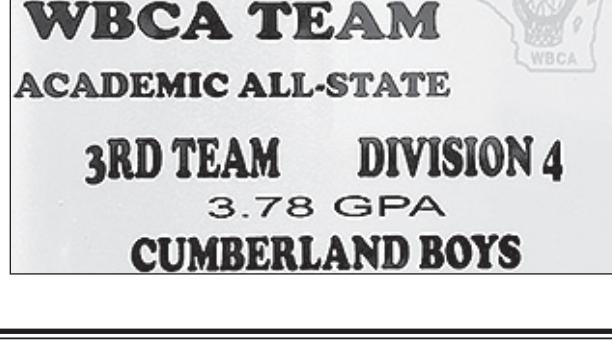

1953 — Back row (left to right): Fred Schiebel, Norm Sullivan, Cliff Odden, Don Peterson, Ted Ficocello, Ken Barrows, Jack Ritchie. Middle row: Roy Wickstrom, Jim Nelson, Al Peer, Don Beran, Bob Nesvold, Clarence Capra. Front row: John Engesether, Jerry Gargaro, Bud Nesvold, Bud Rylander, Tim Heffernan and Steve Van Cauteran. Bat boy — Bruce Stender.

Team Academic All State!

The Cumberland boys basketball team has accomplished an outstanding academic achievement, having earned "2021 WBCA 3rd Team Academic All-State!" Congratulations! Pictured left to right are back row from left Coach Corey Berghammer, DaShaun Ames, Sam Schradle, Jack Martens, Josh Martens, Travis Runberg, Matthew Friess, Dylan Weber, Blaine Peterson, Chris Theese, and Coaches Ryan Zemke and Anthony Barnes. Front row from left are Vaughn Johnson, Jax Effertz, David Olson and Monty Peterson.

WisDNR: Beachgoers: Be Aware Of Blue-Green Algae Risks

When In Doubt, Stay Out; help keep your pets healthy this Summer

The Wisconsin Department of Natural Resources (DNR) is reminding beachgoers and their pets to watch for blue-green algae and know the risks. Blue-green algae can cause illness if swallowed or inhaled in water droplets, or irritation if rubbed on the skin under clothing.

Blue-green algae, or cyanobacteria, are photosynthetic bacteria often called "pond scum." Blue-green algae are most often green but can also be blue, tan, reddish-purple or brown. Blue-green algae generally grow in lakes, ponds and slow-moving streams when the water is warm and enriched with nutrients like phosphorus or nitrogen.

When environmental conditions are just right, blue-green algae can increase in number. Most species are buoyant and will float to the surface, where they form scum layers or floating mats known as a "blue-green algae bloom." In Wisconsin, blue-green algae blooms generally occur between mid-June and late September, although in rare instances, blooms have been observed in winter, even under the ice.

Stay Safe on and off shore

Since most lakes in Wisconsin are not tested for blue-green algae, it is important to know what it looks like and always assess conditions before swimming.

Stay safe by following best practices, including:

- Do not swim in water that looks like "pea soup," green or blue paint, or that has a scum layer or puffy blobs floating on the surface.

Keep Pets Safe

Blue-green algae can have harmful effects on humans and pets. However, because dogs love to spend time in the water, they are not deterred by surface scum and often swallow a lot of water while swimming.

If they consume large quantities of blue-green algae when they drink the water, and if those blue-green algae happen to be producing toxin(s), the animals can become very ill, and even die.

Symptoms of blue-green algal toxin poisoning may range from lethargy and loss of appetite to seizures, vomiting and convulsions. Dogs are particularly susceptible to blue-green algal poisoning because scums can attach to their coats and be swallowed during self-cleaning. To keep dogs safe, choose the clearest water possible for dogs to swim in and keep dogs out of areas with accumulations of blue-green algae or any dense particulate matter.

Follow these tips to keep

pets safe:

- Do not let pets swim in, or drink, waters experiencing blue-green algae blooms or noticeably green water.

• Keep dogs out of shallow, stagnant waters where blue-green algae may be growing on the bottom and dislodged by disturbance. If people shouldn't swim there, dogs shouldn't either.

• Always offer fresh, clean water for pets to drink instead of lake water.

• Always wash dogs off with clean water immediately after they swim, so they don't lick any algae from their fur.

• Supervise pets when they are outside so they don't eat algal scum accumulated on the shore, floating mats of algae or drink lake water.

• If a pet eats grass, avoid using lake water for lawn irrigation if blooms are present.

• If there's any doubt about what is in the water, keeping pets out is the safest

course of action.

Symptoms of water intoxication (from swallowing too much water) and heat-stroke in dogs include vomiting, diarrhea, lethargy, and loss of coordination. Give dogs plenty of breaks from swimming and retrieving in lakes, avoid having dogs bite at splashed water as a game and use flat objects

for retrieval instead of balls. Always provide shade and fresh, clean water to drink.

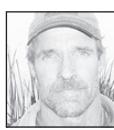

The public is encouraged to report significant blue-green algae blooms to the DNR at DNRHABS@wisconsin.gov. Please include the location of the bloom, the name of the water body, nearest town, county, the size and duration of the bloom and overall and

close-up photographs for verification. The DNR is unable to test all reported blooms.

For more information on blue-green algae, including symptoms of exposure and environmental concerns, visit the DNR Blue-Green Algae webpage. More information is also available via the Wisconsin Department of Health Services.

An Outdoorsman's Journal

by Mark Walters

KAMO Comeback!

Hello friends,

Back in 2007, with the help of many good men and women I helped create Kids and Mentors Outdoors "KAMO". I actually used this column to reach out to the public and it worked. Our goal in KAMO is to get kids outside through our mentors on both one on one and event type of experiences.

Like everything else in the world, Covid 19 was very difficult on volunteer type of organizations and back in March of 2020, together with my Board of Directors, we had to make the very difficult decision to put the brakes on the majority of our actions until very recently.

This week's column is an update on what I believe is an incredible organization.

Friday, June 26th

High 83, Low 51

Rick Miotke is the President of the Baraboo River Chapter of KAMO and also runs our background check program. I spent a night at Juneau County's Castle Rock Park with Rick and some of his mentors and KAMO Kids as they did their annual three-day camping trip. This would be KAMO's first event since Covid and it was great to see our organization on the right track.

I met Mike Brown who is a retired teacher from Lacrosse about ten years ago. I was parked in the Meadow Valley Wildlife Area and doing a bow hunt. Mike saw the KAMO sticker on my truck and contacted me after exploring our website www.kamokids.org. Within two weeks Mike attended the Meadow Valley Chapters meeting, (New Lisbon/ Necedah) liked what he saw and a year later started The Coulee Chapter of KAMO which is the Lacrosse area.

I speak with Mike often as he is one of KAMO's Vice Presidents, the President of his chapter, and runs our website. Just last night Mike and his crew had volunteers for 8 pontoon boats that took kids on rides on the Black River.

One of Mike's favorite one-on-one activities is to take kids fishing on The Best Dam Fishing Float which is located on the Mississippi River below Lock

and Dam Number 7.

On July 10th the Meadow Valley Chapter of KAMO had both mentors and kids riding and walking in the annual Wa Da Shuda Days parade at New Lisbon. Some of them rode in one of the members carp shooting boat while others walked and handed out flyers.

On that same day I drove up to Lake Emily near Florence for that chapters annual Kids Hooked On Fishing Day. Locals meet at the boat landing/park and after the kids register they hit the water and after that there is a picnic and just a very positive social experience.

I met Mick Milner back on the last day of February 2007 when several of us met in Florence for the first time. Mick would become President of The Northwoods Chapter until this past May and let me tell you, he did one heck of a job. John Johnson who is an avid outdoorsman and earns his living in the timber industry is the new Northwoods President and I have an excellent feeling about their future.

On Saturday June 24th, our newest KAMO chapter, which is out of Beaver Dam and call themselves The Dodge County Conservation Chapter of KAMO and run by my good friend Jim Braker, will be doing a fund raiser and meet and greet at The Pig Shack at the Beaver Dam Piggly Wiggly.

So I am the President and to the average person this may seem simple and successful but folks I have to tell you this. We have all the ground work completed from bylaws to a 501-C, background check policy and much more.

What we really need is mentors and kids and cash is always handy. What KAMO gets done with all of its chapters on a statewide basis is monumental but chapter to chapter we need kids and adults.

Check out our website, we are a low key, no stress organization that is like a big family!

Any form of help is appreciated!

Lookback, August 1, 2001

Twelve local cyclists returned home to Cumberland late Friday after completing a windy but successful week of biking across Minnesota. The ride was 334 miles long over five days. Over 1100 cyclists participated, and thanks in part to local sponsors, \$850,000 was raised for the Multiple Sclerosis Society.

The Cumberland Team, "The Cookie Crew" was composed of members Mike and Paula Clay, Jon and Mary Gisalson, Dan Hoffman, John Ritchie, Dale Skerhut, Steve and Patrick Swanson, Todd Voss, and Roger and Barbara Wistrill.

The ride began in Breck- enridge where the team was interviewed by Channel 9 for Good Day Minnesota. The first day's journey was to the resort of Detroit Lakes, where they camped

in a beautiful city park next to Little Detroit Lake. The next day's ride was to the small town of Wadena, where "The Cookie Crew" was again interviewed and featured in the Wadena Pioneer Journal. Wadena gave a grand welcome to the TRAM riders.

After biking 77 miles into a head wind, they spent Wednesday night at the fairgrounds in Brainerd. The next day they again biked 70 miles to Milaca and camped next to the high school. There "The Cookie Crew" wowed the crowd with their rousing rendition of "Roll Out The Cookies." The final leg of the trip took them to a welcome by a large crowd in Pine City. The Cumberland team crossed the finish line together singing their team song and wearing yellow jerseys with the names of

Cumberland sponsors printed on the back.

The total amount raised by "The Cookie Crew" was over \$3,000!

One hundred percent of the sponsorship funds go to the MS Society. The riders pay for the ride themselves. Donations to the MS Society support four targeted research projects: Gender (MS affects three times more women than men). Genetics (including studies at the Mayo Clinic), MS Lesion Project (\$1.8 million at the May Clinic), and the Sonya Slifka Longitudinal Study (\$500,000 a year study to create a repository of in-depth information over time). Additionally, the society supports families coping with the devastating effects of a family member with MS.

July School Board meeting...

and even suggested that the board "has the authority to say 'masks are prohibited'" but acknowledged that this might be a problem when it comes to bussing, since that falls under a Federal order, but suggested that "If a president suffering from dementia signs an executive order and doesn't remember it, does it need to be followed?"

Mike Furseth took the stand next. Furseth was upset that the meeting was not on "the third Monday" as stated in the Board's handbook, and that he could not access the posted agenda, "if it was actually posted as required." *Editor's note: The "Third Monday" is the intended date for each Board meeting but the bylaws allow for it to be moved to accommodate the Board's members schedules. The meeting notice and agenda for this meeting were published a week in advance in the Advocate, as required by law, and were posted in all the school buildings -Elementary, Middle, High and District offices.)* Furseth went on to rail at the "Culture of secrecy" perpetuated, he feels, by the board. Claiming "You never discuss anything" and that he "Just wants to know what's going on." After stating "You do what you want, have your discussions behind closed doors." he left the podium.

Chad Owens started his remarks by noting it was seven months since he first asked his questions on the masking policies and five months since his letter to the administrators. He says he has been told that his group were "being too hard on the school board" and that they were "selfish and ungrateful." He asked "So, by asking questions and demanding answers, we are being 'too hard'?" He claimed that his letter was responded to "by a school lawyer. Not one person of this school or board;" that "a campaign to mislead, misinform and question our motives was put into play;" and that members of his group were put on a "Do not talk to or respond to" list and that the Advocate was guilty of "Cancel Culture" for their decision to stop running Letters to the Editor regarding his group's ongoing conflict with the School Board. Owens demanded to hear the discussion on the Board's policies regarding masks and vaccine policies for the coming school year and Critical Race Theory, calling it "Marxist garbage." He ended by saying "The CDC has already put guidelines out pushing flawed science and requiring masks if not vaccinated. Schools have already received letters from organizations promoting CRT and WOKE culture. This school has yet another opportunity to take a stand against things that are not only polluting our kids minds and souls but tearing the fabric of our Country and community apart. Be leaders, have faith not fear, and push back on this evil agenda that is being forced down our throats."

Finally, Nicole Hile came to the mic. Her questions involved moving forward. She first wanted to know about any COVID funding the school district might have received, and how those funds would be allocated.

Her comments then moved to a different area. With emotions running high, Nicole asked about the district's mental health protocols. Wanting to know the plans going forward, she asked "Will children be given access or seen by the counselor this year?" and "Did you know that didn't happen last year?"

She was upset that, in her experience, the children "did not receive any check in/up from the counselor from March 2019 through June 2019 or any part of the 20/21 school year."

She detailed her own

child's experience where, that student went to the counselor's office to seek help and came away without seeing anyone because "groups of people were hanging out in the counselor's office" and they couldn't get in.

She asked that "these employees please try to meet with EVERY child at least once a year and check in on how they are coping with the loss of a fellow student, covid guidelines, and bullying issues? A general and private meeting for all students." She concluded by saying "I don't think its a tall order and our children deserve it. They need it. Any amount of support we can offer them right now is critical. The youth suicide rate is at an all time high."

Moving on to district reports, Jamie Shaffer, Director of Education, reported that the district's new hires will be receiving training on all the Google platforms and other technology used in the classroom during the staff development time prior to school opening. Also, the State testing data is completed but the results are embargoed. Jamie will get the board the info as soon as it is available to release.

Lorne Majewski, Athletic Director, reported that summer contact days for fall sports were underway and thanked the maintenance staff for their efforts in erecting the tent and moving equipment to help facilitate the training and summer school classes. The Fall sports will all be beginning their practices around the middle of August.

Moving on to action items, District Financial Officer, Steve Mann presented the preliminary budget for the 2021-22 School Year. Steve began his remarks by referencing the 2016 referendum. Steve went over the surpluses and deficits from the years following and explained that all the surplus funds, which had been earmarked for maintenance and repairs, are still tucked away in a fund and still marked for their original purpose, as will be the case for any unspent money from the maintenance contingencies built into the budgets moving forward.

The preliminary budget, as presented, is balanced at \$13,316,105. (last year's budget was submitted at \$13,258,713). The budget cannot be finalized until the amount of Federal and State funding is determined, which won't happen until October. Steve assured the Board that the budget utilizes all Covid funding available. He stated that "We do not know yet how State aid will be affected by the pandemic. We are budgeting very conservatively." Steve also noted that this year's mill rate was \$9.08 and that he expects the mill rate under the new budget to be around \$8.80 depending on property values and final State funding levels. The Board approved the preliminary budget as presented.

The Board next approved the transfer of \$250,000 from the General Fund to OPEB account (Retirement/ Post retirement account) for future liabilities.

After a rise in premiums with the company that currently handles the district's property, liability, and worker's compensation, the board sought bids to see if they could save money on premiums. The Insurance Center returned a bid that would save the district approximately 18% (\$12-13,000) on premiums. The Board approved the change in carriers.

The Board moved on to staffing issues, accepting the resignations of Jenna Stuntz's as Speech & Language Pathologist, and Brandon Johnson from his position of Middle School Assistant Football Coach.

The Board also approved the hiring of Jason Martens as Middle School Boys' Basketball Coach; Justin

Cumberland native Derrick Gideo performed at the Shell Lake Arts Center's final Wind Ensemble and Concert Band performance on Friday, July 16, 2021. This concert was a culmination of a week long Wind Ensemble and Concert Band camp, where participants received instruction from professional musicians and educators on music history, music theory, master classes, chamber ensembles, large ensembles, and more! Congratulations to Derrick on a great performance; we'll see you next year!

Peterson as High School Head Wrestling Coach; Kyle Polzin as High School Assistant Track Coach; and William Rosenow as Middle School Assistant Cross Country Coach. Also, David Stone and BJ Brenna were hired as Co-Assistant High School Boys' Soccer Coaches, splitting the salary for the position.

In addition, Cassandra Morrison will be the new Elementary School Yearbook Co-Advisor.

The district also needed to hire three Special Education aides. Rose Carlson is the new Middle School Special Education Aide, and Carissa Mathison and Dawn Schwartz will serve as Elementary School Special Education Aides. Elementary School Principal Jim Richie remarked that the "quality of the applicants for this position was exceptional."

In administrator reports, High School Principal Richie Narges thanked Arlaina Meyer for all her work with the FFA students over the summer. Great showing at the Barron County Fair. He also announced that Cumberland will be host to three foreign exchange students - one each from France, Spain and Germany. Cumberland's National Night Out on August 3rd will once again use Endeavor Stadium and grounds for the event.

Middle School Principal Colin Green reported that new flooring will be going into three classrooms, replacing worn carpet. Also, the Boys & Girls Club summer program at the Middle School has been going well and the MS Band will be starting will be starting their "summer camp" soon.

Jim Richie told of the 79 kids between 1st and 8th grades, who participated in the swimming lessons offered through summer school and given in the pool at the Barron Area Community Center. The program was so successful, they are making plans to offer courses through Community Education in the fall. He also noted that there are 50-60 kids attending Foundation Camp this summer.

At this point, Dr. Stone took the opportunity to address some issues which had been raised during the meeting. "First," Stone began "let me address Mr. Ruppel's question regarding 'Furries.' the answer is 'No' - I have not and will not do any research into the topic - ever. Don't ask."

Directing his next question to the school principals, he asked "To the best of your knowledge is Critical Race Theory being taught in our schools?" They all answered "No." To Director of Learning Jamie Shaffer he asked "Are there any directives from the Government to include CRT in the curriculum?" She answered "No." "Then I think that settles that." Stone remarked.

Stone then turned to the subject brought up by Nicole Hile, student's mental health. "We have done a great deal in looking towards our student's mental health and we will endeavor to continue to provide care." Board member Jennifer Hyatt-Olson remarked that "We are doing good things, but we can always do more.

It breaks our hearts when we find a child has fallen through the cracks." Principal Narges remarked that "if we are aware of a child in need, we do whatever we can to help." Principal Richie reminded the board of the B.E.S.T. Screening program that is used by the Elementary School. This is a mental health screening tool that the kids are evaluated with twice a year which helps diagnose potential mental health issues.

Next, Dr. Rose presented the preliminary draft of the "Back-to-School" plan for 2021-22. He noted that "Our first priority will always be to create procedures and guidelines that support the safety and well-being of our students, staff, and community." He also noted that these plans could change depending on directives received from the Federal, State and local health officials.

The plan is based on five in-person school days per

week. Students or families not comfortable with in-

person learning may take

advantage of the Island City Virtual Academy online learning platform. However, prior approval to enter the ICVA is required and students must be in good standing to meet the enrollment requirements.

In the event that the buildings need to be closed (Snow Day, shut down, etc.) the students will go to the remote learning platform (Google Classroom) used throughout this school year.

Other points of the plan include:

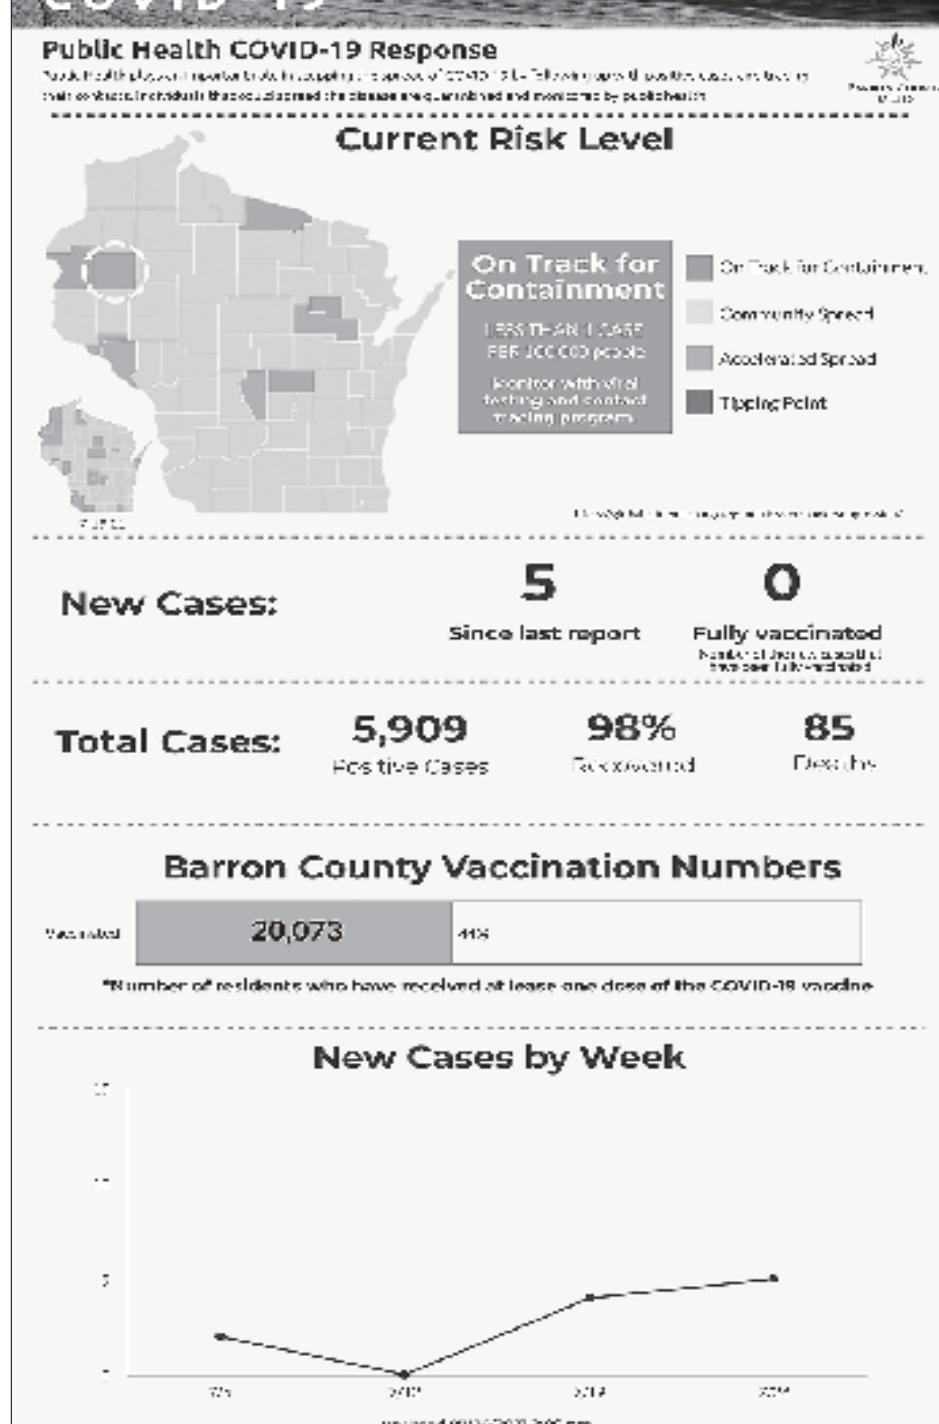

- Facecoverings will be optional for students and staff in school buildings.

- Physical distancing will still be practiced when possible. New CDC guidelines (3ft as opposed to 6 ft) will be re-evaluated at the time new guidelines are issued.

- Lunch tracks have been adjusted to allow for the new distancing guidelines. Food service safety measures will be the same as last year.

Teacher in-service will be August 23-26th; Student Open House will be on August 25th from 11am - 7 pm; and the first day of School will be September 1st.

The next Board meeting is scheduled for Tuesday, August 10th, and will see the final approval of the "Back-to-School" plan.

Correspondents

Barronett News

By Judy Pieper

In just one more week Barronett Lutheran's Bible School will start! August 9th is the day to have your little ones come and join the fun. Classes run through August 13th, from 1:00 until 3:30. All children are welcome. If you have any questions about the classes, please call Peg Thompson at 715 822-8872.

Ted Schoenhals stopped by one day last week and asked me to pass on a report of his "kids' rod and reel" give-away for the year. He said that he had two people that he wanted to thank for their donations. They were: Kathy Zappa, who gave him seven rods and seven reels; and Rich Rydberg who donated one rod and three reels. He also picked up six rods and reels at a garage sale, so he has a total of sixteen, which will be given away on August 6th at the Cumberland food pantry.

Ted gave away 38 rods and reels in June, and he will be giving away 16 in a couple weeks, for a total of 54 this year. Last year he was able to give 88 away, so this was a short year. He will take all donations of old rods and reels that he can get, fix them up over the winter, and then start giving them away again in the spring. He loves to see young people enjoying a day outside fishing. Trust me on this, we all appreciate his work and generosity in helping our youngsters learn to fish.

Monica (Powell) Jennings was at Barronett Tire with her adorable little baby girl, Rozella Angel, a couple weeks ago when I stopped in. I hadn't seen Monica for years – literally – and was so happy to meet her new

Jess, Erica and Brooke Pittman were among approximately 500 people who attended Bible Camp at Calvin University in Grand Rapids, Michigan last week. They had a great time – studied a lot and met a lot of new people. They took the ferry boat across Lake Michigan which was quite an adventure.

Lynn Thon and I had a great day out this past Friday. Lynn had an appointment to have her hair done in Eau Claire, so we decided to make a whole

OBITUARIES

**Nancy J. Anderson**

Nancy Jane Anderson, of Cumberland died Wednesday, July 21, 2021 at Sacred Heart Hospital with her loving family by her side. She was born July 28, 1940 in Cumberland to Harold and Lucille (Lindemann) Riebe. Nancy grew up in Tinley Park, IL until she was 13 years of age. Her family then moved back to the Cumberland area.

Nancy was married in Cumberland on November 22, 1958 to Roger Anderson who preceded her in death on August 14, 2019.

She worked as a waitress at the Tower House in the early 60's until she decided to become a full time mom and help on the family farm. After her youngest child began school, Nancy began

working at the Cumberland Memorial Hospital until her retirement.

Nancy enjoyed spending time outside tending to her vegetable and flower gardens and feeding her hummingbirds. She also enjoyed cooking, baking, traveling, and working on puzzles. She especially loved the time she spent with her grandchildren and great-grandchildren.

She is survived by children: Brian (Cathy) Anderson, Shelly (Norm) Nelson, and Julie (Ken) Lemke; grandchildren: Jenna (Chris) Weber, Andrew Nelson, Kevin Nelson, Ben (Katie) Anderson, Mitchell Anderson, and McKenzie Lemke; great grandchildren: Emma and Evelyn Weber, Claire and Wyatt Anderson; sister, Karen (Gabe) Chido; numerous cousins, nieces, nephews, and many other family and friends. Nancy was preceded in death by her husband, Roger; parents, Harold and Lucille Riebe; and sister, Sandra Lee Riebe.

Funeral services will be held at 3 PM Friday August 6, 2021 at Skinner Funeral Home in Cumberland with

Pastor Tim Schmidt officiating. Burial will be in Lakeside Cemetery. Visitation will be from 2-3 PM.

Skinner Funeral Home of Cumberland is serving the family.

Kathleen M. Roberts

Kathleen Mary Roberts, 72, of Cumberland passed away July 20, 2021 at her daughter's home in Coon Rapids, MN.

Funeral Services will be held in late summer. A full obituary will be printed at that time.

The Old Town Hall

Built in 1884 this building was utilized by the "Island City" in many ways until a new City Hall was constructed in the summer of 1909. It would be replaced at a cost of \$4800. Among its many uses was as a voting station for elections, while also serving as Cumberland's first Library, complete with 200 books, from 1898 to 1904.

LDS Family History Center to reopen

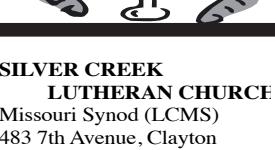

Beginning July 27, the Family History Center at The Church of Jesus Christ of Latter Day Saints in Barron, 644 S. 6th St. will reopen with hours from 1-5 on Tuesdays and 6:30-8 on Wednesdays.

Please use the Northwest door and ring the door bell. You will have Consultants to help you access collections of vast records and family trees. Restricted resources, such as films can be viewed at the Family History Center.

It is free to open a Family Search account if you would like. We have two computers and a printer available to work on here. We have a search portal to use different websites such as Ancestry, My Heritage, Find My Past, Geneanet, etc. Our records are continuing to grow, we now have 31 million indexed Family History Records and almost seven million Catholic Church Records from all over the world. The Barron Family History Center is an auxiliary of the Family History Library in Salt Lake City, the world's largest Family History Library. State covid guidelines will be followed for now.

Church Directory

"God's Diagnosis and Cure"

by Pastor Jared Andrea
Cumberland Baptist Church

Most people would agree with the following statement: "We live in a broken world." We see evidence of this all around us in the news, in our city, and in our own lives. Although most would agree that we live in a broken world, there's debate over *why* the world is broken and the solution to such brokenness. *Ephesians 2:1-5* gives us striking depth and clarity:

"And you were dead in the trespasses and sins⁵ in which you once walked, following the course of this world, following the prince of the power of the air, the spirit that is now at work in the sons of disobedience⁶ among whom we all once lived in the passions of our flesh, carrying out the desires of the body and the mind, and were by nature children of wrath, like the rest of mankind.⁷ But God, being rich in mercy, because of the great love with which he loved us,⁸ even when we were dead in our trespasses, made us alive together with Christ - by grace you have been saved..."

Like a skilled doctor making a precise diagnosis, God reveals that the core problem in this world and in our lives is spiritual: *Apart from God's grace, every individual is:*

- A sinner by nature and by choice
- Spiritually dead in their sin
- Under God's wrath because of their sin against Him

• Unable to change these things by their own effort or works.

This is bad news, but praise God that there's good news! Two small words shine forth into the darkness of our situation: BUT GOD. Out of His love and overabundant grace, God has made a way for sinners to be radically transformed: That way is Jesus Christ. He alone is the cure to the ultimate problem of our sin and brokenness. In Christ alone there's:

- New spiritual life
- Deliverance from sin's destructive, enslaving power

• Deliverance from God's wrath and punishment

Praise God if He has given you spiritual eyes to see the true problem of your sin and the only cure: Christ.

But it is my prayer and plea that if you don't know Christ, that you'd consider these verses and pray that God would graciously give you eyes to see your sin and the glory of Christ the Savior, so that you may truly live.

The Drought July of the Summer Familiar? By Jess Wackerfuss

A strip of country of which Cumberland is the center, eight miles or more in width from north to south, is now most sorely in need of rain. No moisture sufficient in amount to be of any very material benefit has fallen in this strip since before the 4th of July.

The weather man during the first four days of this week, presented us with a hot wave of greater intensity than the one experienced earlier in the season. About 4:00 Monday afternoon, it was announced over the radio that the thermometer at the federal weather bureau in Minneapolis stood at 104, establishing a new all-time heat record for that station. At that time, the most reliable thermometers here were registering from 96-100 in the shade, even at the summer homes on the lake.

For five nights the resident of this section have watched the heavens overcast with clouds, which gave every evidence of rain, only to see them dissipate by morning and never leaving the sidewalk. Wednesday night brought the climax when it sprinkled a drop at a time for two or three hours, and didn't even lay the dust.

Saturday evening, the thermometer took a sudden rise and the heavens were overcast with clouds presenting a quite spectacular display of lightning, mostly of the sheet variety. Sunday evening there was another

similar storm. Monday evening, a storm came up from the south and considerable rain fell in Almena and two or three miles to the north. Tuesday evening the wind shifted to the north, and rain fell and Barronett and two or three miles south.

The weather has been very peculiar. There have been days when the heat beat down mercilessly, with only an occasional light gust of wind. There have been nights when there was no sothing of the wind in the leaves to lull one to sleep. Farmers report that they have been obliged to quit work on account of the heat. Business has been almost at a standstill and the dwellers in town have generally done as little work as possible. Yet the golf enthusiasts still visit the course, even thought its beautiful green hills have turned a dusty brown.

The first heat wave practically ruined the pea crop and did much damage to small grain. The second did its best to ruin what was left. Corn and rutabagas are dying up. Pastures have given out, gardens are yielding but small returns. Early potatoes are small and the late crop is perhaps beyond redemption. Unless relief in the way of a good fall of moisture comes soon, something like a major disaster faces this section.
