Court News...

approximately a foot next to the wood burner and would find the fire bricks that were in the safe. He informed the detective that the metal latches were in the wood pile. Snyder told the detective he regretted his actions and regretted everything he did last week. The detective talked with Snyder about other crimes in the area and asked him if there were any other cases or crimes that he was aware of or party to and he said now. Snyder informed the detective that if anything, there might have been something that some-

one told him about but he would have not taken part or been involved in it. If convicted for burglary of a building or dwelling, Snyder may be fined not more than \$25,000 or imprisoned for not more than 12 years and six months or both. For criminal damage to property he may be fined not more than \$10,000 or imprisoned for not more than nine months or both. His initial appearance was scheduled for December 15, 2023.

PUBLIC NOTICES

**NOTICE OF PENDING APPLICATION
FOR PROPOSED DREDGING**

Tom Schroeder, on behalf of the Beaver Dam Lake Protection District, PO Box 232, Cumberland, WI 54829 has applied to the Department of Natural Resources for a permit to dredge in Library Lake in the City of Cumberland, Barron County.

The purpose of this project is to remove accumulated sediment on the north side of Library Lake to allow for boat traffic to better navigate the lake and through the bridge that connects Library Lake and Beaver Dam Lake.

The project consists of dredging approximately 580 linear feet of shoreline. Dredging will begin 30-feet out from the Ordinary High Water Mark (OHWM) shoreline and extend out 100-feet from the shore. Dredging depth will be 4-feet below the normal water levels of Library Lake (1230.55). The amount of sediment proposed to be removed from Library Lake is 1,000 cubic yards. The surface area of the dredging zone is 40,050 square feet.

The project will be completed during winter months when the ice conditions are favorable (February) so that the lake is in a frozen condition when materials are excavated. Dredged materials will consist of sediment and cattails.

The drawdown shall be completed no later October 1 of any given year. This is to reduce or eliminate the possibility of impacting overwintering reptiles and amphibians.

In October prior to the winter dredging activity, the lake will be dammed up at the Grove Street bridge with a coffer dam and drawn down approximately 5-feet. The draw down must be completed prior to October 1st of any given year. A silt curtain or turbidity barrier will be installed around the dredging area prior to ice up. This will freeze into place through the winter and remain in place during all dredging activities and promptly removed at ice out.

Dredged material will consist of sediment from the lake-bed. It will be removed with a backhoe on the ice, scooping material through the ice. Sediment will be relocated to a local dump site, within 5 miles of the project area. The sediment will be dried, composted, and reused for topsoil.

During the dredging activities, dredge materials shall be immediately loaded into trucks and hauled off site. Trucks will leave the site on the south side of Library Lake.

The dredging work is currently planned for the winter months of 2024.

The Department will review the proposal provided by the

applicant and any information from public comments and the public informational hearing. The Department will determine whether the proposal complies with ss. 1.11, 30.20 and 30.208, Stats., and ch. NR 150, Wis. Adm. Code, and ensure that the required mitigation meets the standards in s. 281.36(3r), Stats. if the project impacts wetlands.

The Department has made a tentative determination that it will issue the permit or contract for the proposed activity.

If you would like to know more about this project or would like to see the application and plans, please visit the Department's permit tracking website at <https://permits.dnr.wi.gov/water/SitePages/Permit%20Search.aspx> and search for Schroeder.

Reasonable accommodation, including the provision of informational material in an alternative format, will be provided for qualified individuals with disabilities upon request.

Any person may submit comments and/or request a public informational hearing by emailing Dan.Harrington@wisconsin.gov, over the phone at (715) 733-0019, or writing to Dan Harrington, 810 West Maple Street, Spooner, WI 54801 by U.S. mail. If you are submitting general comments on the proposal, they must be emailed, verbalized, or postmarked within 30 days after the date this notice is published on the Department's website. If you are requesting a public informational hearing, the request must be emailed, verbalized, or postmarked within 20 days after the date this notice is published on the Department's website. A request for hearing must include the docket number or applicant name and specify the issues that the party desires to be addressed at the informational hearing.

If no hearing is requested, the Department may issue its decision without a hearing. If a public informational hearing is held, comments must be postmarked no later than 10 days following the date on which the hearing is completed.

The final decision may be appealed as indicated in the decision document.
