We're filled with gratitude for the donations, the incredible moments shared and the magic that Margaret's Project Santa has brought to so many. Many families were served Sunday with toys, warm coats and food. The sheer volume of work behind the scenes is astounding, but it all comes together to create a memorable Christmas to so many.

Avian Flu...

ing disease outbreaks. To report increased mortality or signs of illness among domestic birds, dairy cattle, or other animals, contact DATCP at (608) 224-4872 (business hours) or (800) 943-0003 (after hours and weekends). For updates on how the virus is affecting domestic birds in Wisconsin, and to find resources on protecting Wisconsin poultry, visit DATCP's HPAI in Poultry webpage.

Drive Sober or Get Pulled Over enforcement campaign begins; Gift a sober ride this holiday season

The Wisconsin State Patrol is joined by law enforcement agencies throughout the state stepping up patrols to stop impaired driving during the Drive Sober or Get Pulled Over campaign. The national effort begins December 13 and runs through New Year's Day. With the holiday season approaching and celebrations in the works, drivers are urged to plan for a sober ride ahead of time. Impairment can cloud judgement, so designate a sober driver prior to celebrating. If you are the designated driver, take that responsibility seriously. If you're hosting a gathering, consider how your guests will get home. Identify rideshare options before you get to the celebration. There is no reason to drive impaired. During the last holiday season (Dec. 15, 2023-Jan. 1, 2024), there were 393 crashes involving impaired drivers in Wisconsin. Those incidents killed 12 people and injured 197 others.

sin, and to find resources on protecting Wisconsin poultry, visit DATCP's HPAI in Poultry webpage. The HPAI H5N1 virus has continued to circulate in both wild and domestic birds in North America since December 2021. Since that time, the H5N1 virus has also affected other species, including mammalian species. A specific genotype of H5N1 virus was first detected in dairy cattle earlier this year in Texas. To date, Wisconsin has not identified an H5N1 infection in dairy herds in the state. DATCP continues to work with USDA to conduct testing for H5N1, encourage biosecurity, and provide resources to producers.

ing Enforcement (ARIDE) and the state has among the most Drug Recognition Experts (DREs) in the nation, with nearly 400 officers who have completed DRE training. Impaired driving has many consequences for a driver in addition to the potential for a crash. OWI convictions can cost around \$10,000, including fines, court costs, lost time at work, higher insurance rates and vehicle services. A driver can also lose their license and vehicle because of an OWI conviction. Plan for a safe ride this holiday season The State Patrol encourages drivers to put safety first during the holidays:

- Always drive sober.
- Identify a sober designated driver. If you're feeling the effects of alcohol or another substance, you likely are over the 0.08 BAC limit and should not drive.
- Take the bus, call a taxi, or use a rideshare service instead of getting behind the wheel. Use the Safe Ride program to find a ride home.
- If you have a friend who is about to drink and drive, step in. Take the keys away and help them get home safely.
- If you suspect a driver is impaired, safely gather as much info as you can about the vehicle, driver, and location. Then call 911.
